

**The key factor
for your strategy**

Involved with your confidence

Client driven

Commitment: At Tecnichapa, We achieve our clients' trust through commitment, a fundamental value that supports our strategy focused on boosting our clients' businesses. We do commit in supporting reliably the highest standards in terms of competitiveness, service and quality.

Our flexible organisation is prone to adapt to every single need from our clients, always focused on strengthening our long term partnership. Our best skilled people and latest production means are

within your reach in order to offer you an ongoing support throughout the complete product lifecycle. Our determination on these basis leads us to build up a long lasting relationship with our clients.

Teaming up with our clients

Together, we shall overcome: Our active investment policy makes possible not only the best use of specialised machinery, but also to innovate in state-of-the-art technological means. However, these latest technologies

do need a skilled managing, that's why we have committed to a thorough training policy. By means of optimised processes, our skilled and specialised teams are continuously adapting to achieve efficiently the goals that are shared with our clients. Furthermore, Tecnichapa

is firmly supported by the Ormazabal Group, a strong international industrial group that acts globally.

Since its beginnings in 1967, the Group has reached a relevant position in terms of quality, technology and reliability within the Electrical devices market.

Integrated into your strategy

Sharing the strategy

A versatile company: Tecnichapa goes beyond the conventional notion of subcontracting high precision sheet metal parts. Among other virtues, our versatility drives us not only to a tight analysis of each of client's demands, but also to incorporate into their business strategy. Our clients' markets are highly demanding, the best responsiveness and flexibility shall be necessary for their partners. Thus, from the design phase and throughout the whole product lifecycle, our teams anticipate and adapt to our clients' rhythm, a strong value that is necessary to ensure a successful long term partnership.

State-of-the-art technology

Research: Tecnichapa has build up, since years, a leadership position in terms of manufacturing and assembling sheet metal precision products. This leadership can be held not only by means of modern production means, but also by leading a permanent research activity in new applications. Our extended formal process of technological surveillance guarantees the present and future of our production scheme, equipped with latest machinery and best practices.

On going innovation

Innovation in processes

Partnership: Tecnichapa is a first level partner within its field, liable to provide global solutions. Inside our manufacturing site, each client has a fully dedicated workshop that manages and manufactures exclusively their products. These workshops are fully equipped with necessary means to process sheet metal, to assemble complete products and manage the whole logistics chain till the end-user. Thus, every single person acts on a client driven basis since everyone knows accurately each of its clients' needs and expectations.

New management

Quality: The evolution of its Quality Management System has led Tecnichapa to be among the first in the field to incorporate TQM principles as fundamentals in our management processes. As a proof of its consistency, since 1995 our Quality system is certified upon the ISO 9001 standard. Furthermore, since we work for the aerospace market, our system is also certified since 2003 upon the EN 9100 Aerospace standard. Tecnichapa is managed with regards to process management basis, spreading procedures that are based on the EFQM model. At the end, this commitment has boosted enough capacity to reach excellent results in a sustainable manner. On a day-to-day basis, spreading the "Zero Defects" notional quality standards on every single process has driven Tecnichapa to excel as a reliable partner, a major value highly appreciated by our clients.
